Shlok Agrawal

Boston, Massachusetts | shlokagr@bu.edu | linkedin.com/in/shlokagrawal08

EDUCATION

Boston University - College of Engineering | Expected May 2028

B.S. in Mechanical Engineering | CGPA: 3.8

Dual concentrations: Robotics and Technology Innovation

Activities: BU HackHardware, Unmanned Aerial Vehicle Club, BU International Affairs Association

ENGINEERING EXPERIENCE

CAD & Fabrication Engineering Intern | June-August 2025

Programmed and set up a Fanuc robot; designed jigs and fixtures for precision fabrication. Converted CAD designs into fabricated parts and coordinated production across multiple shifts.

Robotics Lab Internship | Surat | February-May 2024

Mentored RC car, boat, and waste-cleaning device projects. Applied SLAM to integrate ground and aerial data for drone-and-rover 3D mapping.

InsideFPV | CAD Intern / Drone Builder

Built drones and oversaw three projects during the internship.

RESEARCH

Better Application of SLAM | Individual research | March-June 2023

Investigated localization precision and algorithm efficiency through sensor fusion and optimization, with applications in robotics, UAVs, and autonomous navigation.

LEADERSHIP

BosMUN - Chair | February 2025

Coordinated committee proceedings, structured debates, protocols, and crisis-based discussions.

Care-N-Share - Founder | India

Organized educational resource distribution and book collection across eight schools.

TOOLS & CAPABILITIES

Python, JavaScript, MySQL, MATLAB, R / AI & ML. CAD, fabrication, Fanuc robotics, jigs and fixtures, SLAM, sensor fusion, Raspberry Pi, Arduino, microprocessors, LiDAR, infrared sensing, RTOS, TCP/IP.

ADDITIONAL LEARNING

Summer at Brown - Brown University | Communication Skills - Trinity College London
